OUR FOOTPRINT

Since the establishment of Xnet in 1999, the company has grown steadily within the ICT and connectivity industry. In 2006, the Easyweb product was launched to expand its service offering, focusing on hosting, connectivity and wireless solutions. This growth eventually led to the formal registration of Easyweb Internet (Pty) Ltd in 2012 under Xnet ownership and license.

Today, Easyweb continues to provide reliable, innovative and customer-focused technology solutions to homes and businesses across South Africa.

Operating across all 9 provinces, Easyweb provides dependable support and infrastructure services to a growing client base. We provide dedicated wireless solutions exclusively across Gauteng. Our experienced team is committed to maintaining stable connectivity, efficient installations and responsive technical assistance for every customer we serve.

With fast response times and dedicated technical support, we strive to build long-term partnerships through professional service and dependable technology solutions through exceptional customer care and support.

OUR VALUES

It's not just about providing reliable services; it's about fostering enduring partnerships through exceptional customer care and continuous innovation.

Our Mission

At Easyweb, our mission is to deliver fast, reliable, and exceptional internet and technology solutions through our core values of Speed, Service, and Stability.

We are committed to providing responsive support, proactive service, and dependable connectivity, ensuring our clients experience minimal downtime and maximum efficiency.

As a team-driven company, we take pride in being hands-on at every level of the business.

From leadership to frontline support, we work together with passion and accountability to exceed expectations. We also believe that taking care of our staff is key to delivering outstanding service and fostering a strong, loyal team that treats every client like family.

Our Vision

Our vision is to become South Africa's most trusted and highest-performing ISP, recognized for unmatched service delivery and speed of execution.

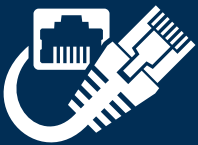

We aim to set the industry standard by not only providing cutting-edge connectivity solutions but by responding faster, resolving issues quicker, and delivering results more efficiently than anyone else in the market.

Driven by our motto, "**Simply the Fastest,**" we strive to continuously innovate, grow, and lead while maintaining the personal touch and commitment that define Easyweb.

OUR SERVICES

Specializing in state-of-the-art Fibre and Wireless Internet, cutting-edge VoIP Phone Systems, robust Virtual Server Hosting, and creative Website Development, Easyweb stands at the forefront of digital transformation.

FIBRE

High-speed fibre internet for homes and businesses.

WIRELESS

Fast, flexible wireless internet to keep you connected anywhere.

VoIP

Reliable, cost-effective internet calling solutions for clear business communication.

HOSTING

Reliable hosting solutions for your website, email, and online infrastructure.

WEBSITE DEVELOPMENT

We build fast, modern websites that help your business grow online.

ADDITIONAL SERVICES

From connectivity to cloud solutions, we provide the extra tools needed to stay connected, protected and productive.

FIBRE

We provide fast, reliable fibre internet tailored for both homes and businesses. Whether you're streaming, working, or running operations, our connections are built for consistent performance. Enjoy seamless, high-speed connectivity you can depend on every day.

Fibre to the Home:

Fibre to the Business:

WIRELESS

We offer flexible wireless internet solutions designed to keep you connected wherever you are in Gauteng. Our service is quick to install and ideal for areas without fibre coverage. Enjoy stable, reliable connectivity for work, streaming, and everyday use.

Home Wireless

We provide affordable and reliable wireless internet solutions for homes.

This service is ideal for households that need fast and stable connectivity without the need for fibre infrastructure.

Our wireless packages are quick to install and designed to get you connected with minimal downtime. Whether you're streaming, studying, working from home, or browsing, we ensure a consistent and dependable connection for everyday use.

With flexible options to suit different household needs, our wireless internet offers a cost-effective alternative to traditional broadband while still delivering strong performance and reliability.

Business Wireless

We provide reliable wireless internet solutions designed specifically for business needs.

This service is ideal for companies that require stable connectivity in areas where fibre is not available or as a flexible backup connection.

Our business wireless packages are quick to deploy and built to support essential operations such as communication, cloud access, and day-to-day online activities. With dependable performance and scalable options, we help keep your business connected and productive at all times.

From installation to support, our wireless services are delivered through Easyweb's own infrastructure and managed by our dedicated in-house technical and installations teams.

VOIP SOLUTIONS

Empower your business with enterprise-grade VoIP, remote working, mobile extensions, and advanced call management.

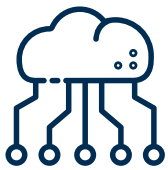

Why Choose Easyweb VoIP?

Local human support and expertise

Fast, secure, and business-focused performance

Affordable and cost-effective hosting services

Anti-virus & anti-spam protection

WEBSITE DEV

We design and develop modern, user-friendly websites tailored to your brand. Our sites are fast, responsive, and built to perform across all devices. From concept to launch, we help you establish a strong online presence.

What Makes Websites Designed by Easyweb Worth It?

- ✓ **Experience That Delivers Results:** We are experienced website developers who understand what works and what doesn't. Every website we build is backed by real-world knowledge of user behavior, performance and conversion strategies.
- ✓ **Tailored to Your Business:** No templates, no shortcuts. We design and develop each website around **YOUR** brand, **YOUR** goals and **YOUR** audience.
- ✓ **Built for Growth:** Your website isn't just for today - it's for where your business is going. We build scalable platforms that grow with you.
- ✓ **Conversion-Focused Design:** A beautiful website is useless if it doesn't generate leads or sales. We focus on creating websites that turn visitors into paying customers.
